Staff will do a brief review of the principles approved by City Council and the, givens and conflicts identified so far. We will discuss how these have been addressed by the February, 2004 Waterfront Charrette and the Waterfront Concept Plan IDT. We would like the WAT to advise staff on additional givens and conflicts to consider and how to best approach these during the development of the Concept Plan.

5. Synthesis of February Waterfront Charrette outcomes (25 minutes)

Staff will discuss their process and the outcomes of their analysis of the 22 Waterfront Charrette proposals. The presentation will include a discussion with the WAT on the overarching themes that emerged from this synthesis and the incorporation of these themes into the preliminary concept alternatives to be previewed in agenda item #6.

6. Preview of objectives and preliminary concept alternatives

Nora Daley from Otak will brief the Waterfront Advisory Team on the objectives and preliminary concept alternatives developed by the Waterfront Interdepartmental Team in July and August. The objectives and preliminary concept alternatives will be the focus of the September 22 Waterfront Advisory Team meeting.
